

## MEDICAL FEES Dr LECOQ - SECTOR 3 - YEAR 2024

Dr Coralie LECOQ, cardiologist, is not covered by the French social security system and is therefore free to set her own medical fees. As a result, the services you receive will only be reimbursed to a limited extent by the French health insurance system. You can also contact your own private supplementary insurance company to check the conditions for possible reimbursement according to your contract.

The amount of these fees is determined in accordance with article 58 of the Code of Medical Ethics, bearing in mind that jurisprudence currently considers that a fee of up to 2.6 times the CPAM rate falls within this framework.

Acts	Fees charged	Social security rates	Amount reimbursed by social security
Initial cardiology workup Annual review Preoperative check-up: consultation with ECG and cardiac ultrasound	250 €	96.49 € (consult and ECG not charged)	15,43 €
Follow-up consultation <6 months: interview, clinical examination and ECG	100 €	70.76 €	1,22 €
Cardiac ultrasound alone	150 €	96.49 €	15,43 €
